Нашите клиенти могат да разчитат на професионална консултация и подкрепа при решаване на различни казуси в лицето на добре обучените ни търговски представители и инженерният екип, които разработват чертежи по всички детайли на сградата, изготвя монтажни планове и съобразяват с тях графика на доставката, изчисляват количествата и стойността на всички необходими панели и комплекти на проекта в частта ограждане. Клиентите ни могат да разчитат на експертното ни съдействие по време на всички етапи от изграждането на един обект със сандвич панели.

Our client can rely on a professional advice and support in solving different cases in the face of our well-trained sales representatives and engineering team, which develops drawings of all the parts of the building, prepares installation plans and conformed with them delivery schedules, calculates the quantity and cost of all the necessary panels and equipment of the project in the part fencing. Our clients can rely on our expert help during all stages of building a project with sandwich panels.
